

Academic Geometry
Pre-Course Practice
Chapter 0

Objectives: To review decimals and fractions
 To simplify ratios and solve proportion
 To review inequalities and absolute value
 To evaluate integers
 To solve simple algebraic expressions

**** Show all work ****

Assignment	Pages	Problem Numbers
#1 Decimals and Fractions	655 656	1-12 1-15
#2 Adding and Subtracting Fractions	658	2-24 evens
#3 Multiplying and Dividing Fractions	659	2-28 evens
#4 Ratio and Proportion	661	2-30 evens
#5 Inequalities and Absolute Value	662	1-17
#6 Integers	663	1-28
#7 Evaluating Expressions	670	1-18
#8 Distributive Property	671	1-17
#9 Solving Equations (1 step)	672	1-20
#10 Solving Equations (multi step)	673	2-30 evens
#11 Review
